

David Ash

David Ash is a science graduate of London University, specialising in Quantum Physics. He also spent many years developing his spiritual life and travelled the world speaking, lecturing and running workshops on ascension topics. He is the father of ten children and currently lives in Brisbane, Australia

The Reviews

Here in this book the electrifying text is the essence of what it is all about – the background, the science, and the tools to take you to the fifth dimension. No longer do we have to be nailed to the cross of space and time – freedom is around the corner. That was the message I received from this, far too thin book. I want to read more of this material. David's direct style of uncluttered writing sailed through my brain cells. Its all in the speed of things! What a revelation! I'm looking forward to more of David's books on the topic of ascension.

Renaissance magazine October/Dec 2002

I loved the way David comes across when he writes that the path of ascension is the way of harmony, balance and integrity. This ascension concept is not new; it is ancient, and clearly defined in all the scriptures but never was is written so simple and easy to absorb. I learned a great deal about the fact that In order to ascend we have to let go of our attachment to everything, including the idea of ascension. The way of ascension has to be unconditional. It is not intended to be the cause of good works so much as the reward for good works. Thank you David.
